

**TO:** Air Quality Board

**THROUGH:** Bryce C. Bird, Executive Secretary

**FROM:** Jaden Materi, Environmental Engineer

**DATE:** March 6, 2019

**SUBJECT:** PROPOSE FOR PUBLIC COMMENT: Amend R307-401-10. Source Category Exemptions.

---

UAC R307-401, currently requires a source with the potential to exceed the small source exemption thresholds described in R307-401-9 to submit a notice-of-intent (NOI) and receive an approval order (AO). In April of 2018, the DAQ received an NOI for a gasoline dispensing facility (GDF). Staff reviewed the NOI, evaluated potential permitting actions, and determined that an AO would not include additional requirements for GDF sources beyond those already required in UAC R307-328 and 40 CFR 63 Subpart 6C.

UAC R307-401-10, therefore, has been amended to include GDFs as an exempt source category from the requirement to obtain an approval order in R307-401-5 through R307-401-8.

Recommendation: Staff recommends that the Board propose amended R307-401-10 for public comment.
